Hongkong, August 19th. 1890. In his report on the trade of Pakhoi for trade\_now exceeds £1,000,000, and it is estimated that about half of this has been are now being made to get that trade back. transit trade in Tonkin has been published, his report for last year mentions that on most articles the dues are light, in only a certain line of goods reaching 5 per cent. of their value. In addition to this lightening of dues, the French are also improving communications. A railway is being built from Phu-lang-thuong to Langson, which, though designed primarily for strategic purposes, highly of the prospects of the enterprise. The cannot fail to largely develop trade; and the engineering difficulties of the track, although the above we regret to learn that Mrs. Schroeder navigability of the Red River has now been conclusively demonstrated by the ascent of two steamers to Lackay. "The problem has been, and is," says Mr. ALLEN, "how best and it is not supposed that there to carry goods from the Tonkin Gulf to the any difficulty as regards the purchase inland waterways of Kwangsi, which waterways give access to South-west China in 120 to 150 miles and would tap several towns general." Mr. Allen expressly leaves the and villages of importance. There would na Red River route out of consideration, and for the scheme and it is estimated that when confines himself to the probable effect of the Langson railway on the trade of Pakhoi. Pakhoi is, in a straight line, only some seventy-five miles distant from the nearest point of the West River, but the land carriage over that comparatively short space costs more than does the further carriage have occurred, two persons have been more for some two hundred miles or so of waterway as far as Po-se, at the head of the na vigation of the same stream. Mr. Allen apparatus consisted of an ordinary camera ennaturally anticipates that when the Langeon railway is completed, while the land route square inch. When the stand attached to thi from Pakhoi to the West River remains

be met by the construction of a railway from Pakhoi to Nanning, a scheme which receives Mr. ALLEN's support, though he does not sug- able to inform our readers that the casualties gest that it is at all likely to be carried into effort. Such a railway would be an excellent thing for the Southern provinces and would prove a very profitable undertaking. But there is another means by which the competition could be met, and that is by the medical adviser, Dr. J. W. Heron, who after opening of the West River and its affluents to steam navigation. Goods could then be noisoning and dysentery. The deceased gentle water borne the whole way from Hongkong man, one of the best known missionaries in or Canton to Pose with not more than one transhipment. To Wuchow steamers of wretched country. His funeral obsequies, celemoderate draught could ascend all the year round, and during the months when the river is full probably much farther. In the upper reaches, where it might be necessary to use native craft, the progress of these would be greatly accelerated if towage by worthy life. Dr. Henry Allen, late Foreign launches were permitted. The average rate of progress of the native passage boats up stream is about twenty miles a day, made chiefly by the laborious process of

The use of steam is unches is gra- and entered upon his functions.

will be re-appropriated by the latter.

The competition of the Toukin routes could

dually increasing in the neighbourhood of Canton and if official restrictions were removed would speedily become general on all the waterways. The concessions made in he immediate neighbourhood of Canton are something to be thankful for, and it may ness of sugar in that country necessitating

not be unreasonable to expect that the beneficial effects will lead to the gradual extension of steam towage. But if the Vicerov of the Two Kwang takes any interest in the ubject and desires to secure the transit trade for his own provinces instead of allowing it to be diverted to Tonkin he will have to revise his fiscal system and allow goods to pass along the river on terms as easy as hose accorded by the French. Trade cannot possibly flourish when there is a lekin station every few miles and duties are mul tiplied until they amount to as much as the value of the goods.

Weather permitting there will be a game of Polo at Causeway Bay at 5.45 p.m. to-day. There were 1.645 visitors to the City Hall fuseum last week, of whom 133 were Europeans. The P.M. steamer City of Peking, hence July Oth, for San Francisco, via Kobe, Yokohama,

These the colonising oxperiment, which cost R3,000, ended in smoke.

> The Chinese survey party who started from here some time ago to prospect the route of the proposed Canton-Kowloon railway returned on Saturday last. The party on its arrival here had somewhat decreased in numbers saveral of the original prospectors having become disheartened and given up the journey en route Those who completed the entire journey speak not inconsiderable are not such as to deter those who originated the idea from their desire to carry ont their scheme. The populace of the towns and i villages on the route which the proposed railway would take are in favour of the scheme vate ground through which the railway would run. The line would probably cover from nrally be little difficulty in obtaining labour once commenced it should be completed in from

two to three years. The Japan H. rald-says: - " A rumour reaches us from Misaki that the deep see photographi project with which is associated the names of Professors Burton, West, and Milne has met with a serious reverse. A terrific explosion is said to less seriously injured and the apparatus which took many months to construct is now at the bottom of the Pacific. From what we hear, this upon to act in the matter. It is only due to the losed in a cast iron box sufficiently strong to withstand from 600 to 1,000 lbs. pressure to the touched bottom, by an ingenious contrivance the oup was removed from the lens and the contents what it now is, such trade as Pakhoi has of two bottles were caused to mix-this mixing diverted from Tonkin in the last few years resulting in an explosion, giving the light ne cessary for the production of a photograph From what we can gather, by some means or other the mixing must have taken place earlier than the operators expected. Before long we may receive a detailed account of what has really occurred, and we sincerely trust that we shall be are not so serious as the rumour leads us to sup-

> A correspondent of the Nagasaki paper, wr ing from Seoul, Korea, under date 28th July. says :- "The native and foreign community have to reprot the premature demise of their friend and short illness departed this life on the 26th July The cause of his death was, I believe, blood-Secul, possessed the confidence and esteem of every foreigner and thousands of natives in this brated on the 27th July, were universally attended. His mission is now in charge of his colleagues, Rey. H. G. Underwood and Mr. Gifford. As he was the royal physician, the Korean Government, as a mark of respect to his memory propose having the remains interred in the vicinity of Seoul - fitting tribute to Secretary to the Korean Legation in United States, will succeed him as Champan and Medical Secretary of the Home Office Dr. Allen has also just been nominated Secretary of the U. S. Legation in Korea, and inobedience to the cabled wishes of the State De-

In the House of Commons on the 15th inst. I the Company has thereby been finally settled, which Sir G. Campbell asked the Under Secretary of the working of the New Dock has proved to be State for India whether the Indian Agricultural Department had made any trials with the view in it during the six months, but in many cases the of introducing the cultivation of best and manusame vessels could have been docked at Aberdeen, as facture of bestroot ager into India, or would the docks there were uncompled for a good part of to so in view of the present shortness and dear. the half-year. importation. Sir J. Gorst.-Trials have been made at Seharunpore and other places, not, so far, with any conspicuous success.

The Hamburg correspondent of the London and China Houress writes .- It will be remembered that the balance sheet of the subsidised lines of the Norddentscher Lloyd in 1889 showed a deficit of m.266,000, against m.60,000 in 1858 It is now made known that the cause of that deficit is no decrease in the traffic, but that it is owing to higher wages, which had to be paid, and to higher prices for coal. With regard to the traffic the facts are highly favourable. The East Asiatic line took at Bremerhaven 20,282 tons, against 20,989 tons in the previous year; at Antwerp 7,631 tons. against 5,950; at Genoa 1,214 tons, against 1,742; at Colombo 851 tons, against 166; at Singapore 867 tons; against 428; at Hongkong 1,186 tous, against 558 for Shanghail The same line delivered at Antwerp 329 tons. against 298; at Genoa 539 tons, against 277; Port Said, 357 tons ag inst 234 Aden 1,562 tons, against 713, Colombo 1,126 tons, against 672; Singapore 5,043 tons, against 3.411; Hongkong 13,463 tons, against 12,609; Shanghal 9,703 tons, against 10,672 tons. These To value of Pilot Fish, no per last statefigures not only show that the coasting trade in Chine now makes good use of the German steamers but also that the trade between Germany and China is much increased by the subsidised steamers. The traffic of the branch line from Hongkong to Japan has remained almost unchanged; from Hongkong to Japanese, ports had been taken 3,633 (9,002), among them 4,000 tons of Chinese provenience: from Japan to Hongkong were shipped 17,801 tons (16.601), and 5,673 (5,294) of these were destined to Europe. A similar satisfactory result is to be reported about the Au The Malacca correspondent of the Singapore

Free Press writes .- Dr. Hoad returned from Kwala Pilah on Wednesday evening (6th inst). and tells the following account of the accident to Capt. Paterson, of the 91st Highlanders. He and Lieut. Sutherland, of the same regiment, By Hougkong Land Investment & Agency wordin Gemenchi after elephants. Capt. Paterson saw one coming towards him, fired, and missed him with the first barrel, but hit him with the second, though not mortally. Capt. Paterson then sprang behind a tree, but the elephant caught him with his trunk round the temples, twisted him round and threw him, although Capt. Paterson hit the animal on its head with his clubbed rifle. Whilst down, the elephant gored him through the thigh, the task fortunately going on the outside of the lex, thus missing the femoral artery. The animal then strove to knead Capt. Paterson to death with its kness: but he clane plackily to the animal's task, and the elephant could not free himself. The struggle must have been fearful, as Capt. Puterson says he can well remember the animal's knees being to the party then came up shouting; and the bolted. 'This took place about noon on the 27th, and it was not until the 28th that Capt. Paterson could be moved. As they had no water fit to drink, Lient. Satherland sat by the wounded man all night squeezing the dew from the leaves into his month, as his thirst was naturally very six miles through the jungle to a house; and then By transfer fees down the Gemenchi River to Jumgel At By bonus on premis, &c...................... Kwala Jumpel Dr. Hoad met them, and brought Capt. Paterson to Kwala Pilah, where he and twisted yet there is no reason why Capt. Paterson should not recover. The way in which The following letter was received by the Re- | Capt. Paterson kept his presence of mind, and the terrible situation when the animal gored him. he could not help feeling as the tusk passed on

> Two sad cases of death of European ladies by cholera occurred at Kobe on the 7th just. The in Kobe yesterday morning, the victim being a W. Kock, E. A. da Silva, J. dos Remedios. Schroeder now lies at the infectious diseases. hospital, whither she was at once removed on her disease becoming apparent, and but faint hopes are entertained of her recovery. The funeral of the daughter took place vesterday afternoon at the Cemetery. Permission had been applied for from Mr. E. J. Smithers. as President of the Municipal Council, who sanotioned the burial on the understanding that | guilty. perfectly thorough measures of disinfection were taken. For the ressentance of the community we may state that everything possible in this direction has been done, and that the grave was dug to the unusual depth of 10 feet, the usual depth being from 74 feet to 8. Since writing | BRYORE MR. A. G. WISE, ACTING PUISNE died at a quarter past three yesterday afternoon. She was buried this morning at eight o'clock. The medical certificate in both cases gives Acistic cholers as the cause of death. Barel eighteen hours claused between the time of keigure and death." Although there are plenty of reverend rentlemen in Kobe, the deceased were burled without benefit of clergy. Hyogo News, remarking on the fact, writes:-Bread of chelera is surely not so bad in Kobe that a clergyman cannot be found to perform he last offices to the dead even when the dead are victims of cholers in a serious form.

It is with sincers regret a great regret which will be shared by the communitythat we learn as the result of careful inquiries that no clergyman was in attendance at either the funeral of Mrs. Schroeder on Wednesday night or her mother yesterday morning. They were in fact buried without benefit of clergy This reprettable circumstance was probably due to the fact that no evidence existed as to the nationality of the deceased and no one felt called resident clerry here to say that no request was made to them to officiate. We trust, however, that should it come to pass that any more atrangers breathe their last among us, the reprosch which the community has incurred in this matter will be atoued for. The name of the elder lady we learn, should be Mrs. Rodgers and of the younger Mrs. Schroeder. The latter was the Kobe-maru, and was taken worse on the evening of the day she came on shore. - he very probably contracted the disease in Nagasaki and her mother took it from her."

Cocey kow, referred to in the above letter, seems mys Melbourne that a black lizard of the genus the Kew Gardens Bulletin, to be an industry of Engernia, found by him, is new to science. considerable importance, and is fully detailed in an article from the Planters' Gasette, reprinted. in the Tea Cyclopeædia issued from the office of the Indian Tea Gazette. Calcutts, and published by W. B. Whittingham and Co., 91, Gracechurch Street, London, in 1882. It is there stated that the Commissioner of Customs at Hankow. recorts that the importance of the brick dea trade is rapidly increasing, and the demand becoming greater than the supply. The employment of steam machinery for pressing the bricks has proved in every way a great success, the steam-pressed brick being much better unished than that produced by hand, and more compact and firm, withstanding the difficulties of transit better, and ultimately arriving at its destination in Siberia little if any the worse for the journey. With the old method. the bricks, from insufficient pressing power were liable to chip and crumble at the edges; and as great stress is laid on the perfect appearance of the brick by the Siberians, it can be easily understood that a hard, sharply defined brick would at once obtain the preference. With both methods of manufacturing brick tea. there is a drawbick, and a serious one—the damping

pound each, retaining the original aroma in all its freshness.'' It was considered very probable that the ordinary brick tes and the compressed tes would run side by side in friendly competition. the brick keeping its own position for use amongst the poorer, and the compressed ter becoming popular briongst the better classes At the time the article was written from which the preceding extract is made, there were six manufactories in Hankow, in three of which hollers were used trican town who has worn about her white throat either for steaming the tea, or both for that for some time a very handsome diamond necklace purps o and furnishing power for pressing, bet with thirteen single stones of considerable The dust from which brick tea is made comes value. As the parents of the young woman principally from Ningchow in Kinngst and were not persons of wealth, the ornament nu-Tsung yang and Yanglout ung in Hupeh, and turally was the occasion of considerable speculavaries both in fineness and cost according as it tion among her friends. Finally, one lady, belongs to the first, second, or third crop.

The Commissioner proceeds to state that-

The brick ten of Phibet is an entirely different

unlity of tea from the above described. The full grown leaves and used, and are comparatively lopsely present together into blooks about 10 ins. by 10 ins. and 4 is thick Mr. Colborne Liber, some time British Consul at Clungking, depribes the Thibetan tenpot as
The British fleet up here number eight vessels, a wooden churn, in which the boiling infusion is poured through a strainer; a little salt is added. officers and men enjoy themselves by sailing and some 20 strokes applied with a dasher pierced races every Thursday, and paper hunts every with five holes. A lump of butter is then saturday afternoon, and as Jack cannot enjoy thrown in, and the compound is again churned the pleasure of the pater hunts, why he puts all with from 100 to 150 strokes, administered with much precision. The tea is then ready for drinking.

> The use of compressed tes in this country has been attempted at different times, but never with complete snores. A few years are two companies were formed for working it, and at the present time there is a company in London which deals exclusively in this article, a sample of which is in the Kew Museum. It is claimed for this tea that it has many advantages over loose tea, the chief of which is that the leaves being submitted to heavy hydraulic pressure all the cells are broken, and the constituents of the leaf more easily extraoted by the boiling water, thus "fleeting a considerable saving in the quantity equired for use. Its great advantages over cose tea, however, would seem to be its more portable character, and in the case of long sec oyages, or for his in expeditions the reduction

> f its bulk to one third The compression of tea\_into blocks further, i said, constitutes a real and important improvement in the treatment of tea. These blocks weigh a quarter of a pound each; and are sub-divided in counces, half onnces, and quarter oupoes; this insures exactitude in measuring and saves the frouble. wasterned uncertainty o measuring by spoonfuls. It also ensures upiformity in the strength of the infusion B compression it is claimed that the aromatic properties of the leaf are retained for a much onger period, and that it is better preserved from damp and climatic changes.

During the last Italian war a Frenchman who and been brought, badly wounded by a rifle ball into the ambulance of his regiment, was in turn risited by the surreon. After the latter had rapidly inspected the wound he took a probe from is instrument case and with very little warning plunged it into the wounded man's thigh. He then probed him in the back, and was about to wake a third application of the instrument when the wounded soldier came sufficiently to himself to be able to gasp, " Mon Dien dontor, and why are you cutting me about like this?" Mon and replied the surgeon, " it is absolutely necessary to extract the bullet from your wound." The ballet," exclaimed the patient. " but that is on a ready You'll find it in my tropsers pocket."

The following story is told of Dr. Franck iright. Maeter of University College :- The Co lege had done well one year in the annual spring boat-races and the crew elated by their success, indulged themselves by giving an unusually uproarious bump-supper a the conclusion of their exertions. The next morning one of their number and occasion to resent himself in the Master's study to give him an essay. The Master was sitting at his writing-table, evidently absorbed in business. Presently he looked up, to see the young man standing at his elbow, essay in hand. "So and so, said the Master (he stutters a little), "you were all d-d-drunk last n ght." "No, sir ! npon my word, sir! " remonstrated the young man, of righteens indignation. Th-th-thes here's no excuse for you," said the Master, and

IMPERIAL QUARTO. INGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDABIN

PRONUNCIATION. An Angle-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, N.B.—CARGO CAN BE TAKEN ON THROUGH Land in science generally, which the rapid advance BILLS OF LADING FOR THE PRINCIPAL of foreign relations has imposed upon thom, are here given in extenso. Each and every word is N WEDNESDAY, the 27th day of August, fully illustrated and explained, forming exercises 1890, at 4 P.M., the Company's Steamship for students of a most instructive nature. Both 'PREUS:EN," Captain Reimkasten, with the Court and Punti pronunciations are given displays the success of an attempt to make the Shipping Orders will be granted till NOON, Chinese and English type correspond in the size

The Steamer has splendid Accommodation | To illustrate the vast scope of the work the following facts are submitted for consideration:---Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst 7 this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as

many as any other Dictionary hitherto pub-For practical purposes the arrangement of the work is so complete, that a reference to Its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all. Europeans residing in China, and to the natives themselves it explains subjects fully with which very fow indeed of them are perfectly acquainted. To parties resident in England and interested

China it cannot but be invaluable occasion-It comprises upwards of two thousand large 4 Vols. IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made Purchasers of SIX or more Copies.
